

The Sites

In the open session last year. A number of landowners and others over the last few years had put forward sites/plots of land for possible areas to be considered for development of houses to Herefordshire Council.

We asked for your views on these plots of land and the results can be seen below. We are still working to a housing need of 25-30 houses with type and number of bedrooms not defined. As you will see from the questionnaire answers and the options presented. We have a view to now put forward and would like your feedback on these options, once you have had the opportunity to review the results and other documents posted around the room.

Should you want to know more about the plots. The documents are available in a file on the table within the room.
