

Notes for Parish meeting May 2014

To recap had our 6 sessions held in January and February.

Preston Wynne had 26% of the Electoral role,

Withington, a disaster. 3%.

Westhide 27% of the Electoral roll.

The follow on session on the 29th March, 10:00 to 16:00, had just over 100.

The results of this day showed that a clear view about which locations.

69 % for the site that had the most votes.

Followed by

8% for the next 2 locations.

5% for the next one and so on.

That is on first choice.

If adding the 1, 2 and 3 choices together.

Same site, still 3 times ahead of the next site.

Now the questionnaire is required to take this further and ask the type of houses and a number of other questions. The questionnaire that will be delivered to every house in the parishes in June timeframe with your help. I will come back to that.

We also had a meeting with the planning person on the feedback on the 8th April and also to discuss the next steps with the planning person assigned to us and will be feed into the questionnaires I have mentioned.

I also attend a forum on the 9th with other teams working their plans. What came out and we found we had missing was the mission statement and the team developed one.

Developing our future needs for all to enjoy.

With a Vision of

Developing future needs by listening to the views of the community for the benefit of all.

Now the help required.

We have the questionnaires to delivery and need your help. A simple split of the number of deliveries between each team of councillors in each parish.

While you think about that. You would have been told this evening which areas, due to a failure on my behalf and meeting that was held at my house but I forgot to attend. We need to do this via email and drop the questionnaires off to you once they have been printed with collection requests afterwards.
